

Testing Assignment - Complete Guide (Steps 1 to 5)

Step 1: Requirement Analysis

- 1 Read the requirement carefully.
- 2 Identify all input fields and validations.
- 3 Understand mandatory and optional fields.
- 4 Understand expected system behaviour.

Step 2: Identify Test Scenarios

- 1 Prepare scenarios for Mobile Number.
- 2 Prepare scenarios for OTP verification.
- 3 Prepare scenarios for Name, Email, Course, State and City.
- 4 Prepare scenarios for Questions field and Call Me button.

Step 3: Prepare Test Cases

- 1 Write positive and negative test cases.
- 2 Use Boundary Value Analysis and Equivalence Partitioning where applicable.
- 3 Define Expected Result for every test case.

Step 4: Execute Testing & Log Defects

- 1 Execute all test cases.
- 2 Capture screenshot of failed test.
- 3 Record Expected Result vs Actual Result.
- 4 Assign Severity and Priority.

BUG-001: OTP Not Received

TS_09	Verify Call Me Button	To verify that system validates all the fields and shows success or error message.
